INTRODUCTION

The National Works Agency (NWA) is an executive agency of the Government of Jamaica under the Ministry of Economic Growth and Infrastructure Development (MEGID), responsible for the administration of the national main road network of approximately 5,000 km.

In support of its modernization agenda, digital transformation, and mandate to improve transparency, accessibility, and public engagement, the NWA is undertaking a comprehensive redevelopment of its corporate website to ensure alignment with the Information and Communication Technology (ICT) Authority theme and with broader digital strategy of the Government of Jamaica (GoJ).

The NWA's Information Technology Unit is seeking a consultant to redevelop the National Works Agency's Corporate Website.

The redeveloped platform will modernize the Agency's digital presence, expand online service offerings, and improve operational efficiency, while strengthening public trust through clearer, more timely, and more transparent communication on:

- the condition and management of Jamaica's road network;
- major infrastructure projects and programmes;
- disaster preparedness, response, and recovery activities;
- core departmental services and online transactions; and
- public information, notices, publications, and stakeholder updates.

The contract duration is **sixteen (16) weeks.**

To be considered eligible, bidders must submit the following with their bids:

a) A valid Tax Compliance Certificate (TCC) or Tax Compliance Letter.

Failure to submit the document listed above shall result in the rejection of the bid.

Special Note:

Pre-Bid Meeting

A virtual pre bid meeting will be held on **Friday, February 20, 2026, at 11:00 am.** The meeting will be facilitated via Microsoft Teams.

All interested Consulting Firms are required to sign a **Non-Disclosure Agreement (NDA)** prior to attending the proposed Pre-Bid meeting. The completed and signed Non-Disclosure Agreement (NDA) must be submitted via email to the Director, Public Procurement @ christopherbeccan@nwa.gov.jm **no later than Thursday, February 19, 2026, at 2:00 pm. The hardcopy NDA must be printed on legal size only and submitted no later than Friday, February 20, 2026.**

Pre-proposal Website Mock-Up Presentation

In keeping with the evaluation criteria, prospective Consultants will be required to execute a twenty (20) minute mock-up presentation of the proposed website which clearly demonstrates the requirements of the TOR with the use of methodologies which are innovative and in keeping with modern approaches utilized in website design and development. The respective consultants may include as part of their presentation live links from previous websites.

Bids shall be valid for a period of **120 calendar days** after the bid closing. Bids must be submitted online www.gojep.gov.jm no later than **Thursday, March 12, 2026, at 12:00 pm.**

Online Bid Opening takes place on **Thursday, March 12, 2026, at 12:15 pm.** An online opening report will be sent to all Bidders that submitted a proposal.

A prospective Bidder requiring any clarification of the Solicitation Documents **- including the contract document** must be submitted no later than **Friday, March 6, 2026, at 12:00 pm. All clarification will be facilitated through the electronic platform only** (www.gojep.gov.jm)

The National Works Agency is not obliged to accept the lowest or any bid and reserves the right to terminate the tender process at any point before the award of contract without incurring any liability to any of the participants.

This is an online managed Tender, and tender documents and Supplier Bids will only be made available and accepted via the electronic Government Procurement Portal (www.gojep.gov.jm). **No offline (hard copies) Bids will be accepted and there will be no physical tender box for drop-off of Bids. To participate in this tender opportunity, Suppliers must first be registered and know how to use the electronic Procurement System**, www.gojep.gov.jm.

Please register on the e-GP System, by selecting the *Register as a supplier* link from the home page.

For assistance, and training please contact the support desk at: (876) 932-5740.

Section I. Instructions to Consultants/Firms

A. General Provisions

1. Definitions

(a) "Affiliate(s)" means an individual or an entity that directly or indirectly controls, is controlled by, or is under common control with the Consultant/Firm.

(b) "Applicable Policies" means the policies of the Government of Jamaica governing the selection and contract award process as set forth in this RFP.

(c) "Applicable Law" means the laws and any other instruments having the force of law in Jamaica.

(d) "procuring entity" means (a) a Ministry, department, Executive Agency or other agency of Government; (b) a public body; (c) a local authority; (d) any other body that is the recipient of public funds and duly authorized to apply those funds to public procurement and includes an entity acting on behalf of any of the entities in connection with any procurement proceedings.

(e) "Consultant/Firm" means a legally-established professional consulting firm or an entity that may provide or provides the consulting services to the procuring entity under the contract.

(f) "consulting services" means consulting services provided by a person or firm as a consultant/firm that are of an intellectual, research, technical or advisory nature.

(g) "contract" means a legally binding written agreement signed between the procuring entity and the Consultant/Firm and includes all the attached documents listed in its Clause 1 (the General Conditions of Contract (GCC), the Special Conditions of Contract (**SCC**), and the Appendices).

(h) "Data Sheet" is an integral part of the Section 1 - Instructions to Consultants/Firms (ITC/F) and is used to reflect specific country and assignment conditions to supplement, or modify the provisions of the ITC/F.

(i) "Day" means a calendar day.

(j) "Electronic communications" means the transfer of information using electronic or similar media and the recording of information using electronic media.

(k) "Experts" means, collectively, Key Experts, Non-Key Experts, or any other personnel of the Consultant/Firm, Sub-consultant or JV member(s).

(l) "Government" means the government of Jamaica, and may be referred to in this document as "Government of Jamaica" or "GoJ".

(m) "in writing" means a communication in hand or machine written type and includes messages by facsimile, e-mail and other electronic forms of communications with proof of receipt.

(n) "Joint Venture (JV)" means an association with or without a legal personality distinct from that of its members, of more than one Consultant/Firm where one member has the authority to conduct all business for and on behalf of any and all the members of the JV, and where the members of the JV are jointly and severally liable to the procuring entity for the performance of the contract.

(o) "Key Expert" means an individual professional whose skills, qualifications, knowledge and experience are critical to the performance of the consulting services under the contract and whose CV is taken into account in the technical evaluation of the Consultant's Proposal.

(p) "LOI" (this Section 1. Letter of Invitation of the RFP) means the Letter of Invitation being sent by the procuring entity to the shortlisted Consultants.

(q) "Non-Key Expert" means an individual professional provided by the Consultant/Firm or its Sub-consultant and who is assigned to perform the consulting services or any part thereof under the contract and whose CVs are is evaluated individually.

(r) "Proposal" means the Technical Proposal and the Financial Proposal of the Consultant/Firm.

(s) "RFP" means the Request for Proposals to be prepared by the procuring entity for the selection of Consultants.

(t) "services" means any object of procurement other than goods and works, and includes consulting services.

(u) "Sub-consultant" means an entity to whom the Consultant/Firm intends to subcontract any part of the consulting services while remaining responsible to the procuring entity during the performance of the contract.

(v) "Terms of Reference (TORs) (Section 5 of the RFP) explains the objectives, scope, activities and tasks to be performed, respective responsibilities of the procuring entity and the Consultant/Firm, and expected results and deliverables of the assignment.

(w) if the context so requires, "singular" means "plural" and vice versa.

2. Introduction

2.1 The procuring entity **as specified in the Data Sheet** issues this solicitation document (SD) for the procurement of consulting services **as specified in Section 5,** Terms of Reference. The name and identification number of this national competitive bidding procurement **as specified in the Data Sheet**. The name, identification, and number of lots **as specified in the Data Sheet**.

2.2 The procuring entity has received public funds toward the cost of the project named **as specified in the Data Sheet** for the execution of this procurement.

2.3 The Consultant/Firm is invited to submit either a Technical Proposal and a Financial Proposal, or a Technical Proposal only, **as specified in the Data Sheet**. The Proposal will be the basis for negotiating and ultimately signing the contract with the selected Consultant/Firm.

2.4 The Consultant/Firm should familiarize themselves with the local conditions and take them into account in preparing their proposals, which may include attending a pre-proposal conference is at the consultant/Firms expense and is optional or as otherwise **specified in the Data Sheet**..

2.5 The procuring entity will provide the inputs and relevant project data and reports required for the preparation of the Consultant/Firm's Proposal **as specified in the Data Sheet**.

2.6 Bidding will be conducted either in hard copy or using the Government of Jamaica Electronic Procurement (GOJEP) System as **specified in the Data Sheet**.

3. Conflict of Interest

3.1 The Consultant/Firm is required to provide professional, objective, and impartial advice, at all times holding the procuring entity's interest paramount, strictly avoiding conflicts with other assignments or its own corporate interests, and acting without any consideration for future work.

(a) The Consultant/Firm has an obligation to disclose to the procuring entity any situation of actual or potential conflict that impacts its capacity to serve the best interest of the procuring entity. Failure to disclose such situations may lead to the disqualification of the Consultant/Firm or the termination of its contract. Without limitation on the generality of the foregoing, the Consultant/Firm shall not be hired under the circumstances set forth below. Consultant/Firms may be considered to have a conflict of interest with one or more Parties in this bidding process, if they:

(i) are or have been associated in the past, with a firm or any of its affiliates which have been engaged by the procuring entity to provide consulting services for the preparation of the design, specifications, and other documents to be used for the procurement of consulting services under these bidding documents; or

(ii) submit more than one Proposal in this bidding process, however, this does not limit the participation of subcontractors in more than one Proposal;

(b) Conflicting activities

(i) Conflict between consulting activities and procurement of goods, works or non-consulting services: a firm or any of its affiliates that has been engaged by the procuring entity to provide goods, works, or non-consulting services for a project, , shall be disqualified from providing consulting services resulting from or directly related to those goods, works, or non-consulting services. Conversely, a firm hired to provide consulting services for the preparation or implementation of a project, or any of its affiliates, shall be disqualified from subsequently providing goods or works or non-consulting services resulting from or directly related to the consulting services for such preparation or implementation.

(c) Conflicting assignments

(i) Conflict among consulting assignments: a Consultant/Firm (including its Experts and Sub-Consultants) or any of its affiliates shall not be hired for any assignment that, by its nature, may be in conflict with another assignment of the Consultant/Firm for the same or for another procuring entity.

(d) Conflicting relationships

(i) Relationship with the procuring entity' staff: a Consultant/Firm (including its Experts and Sub-consultants) that has a close business or family relationship with a professional staff of the procuring entity who are directly or indirectly involved in any part of (i) the preparation of the Terms of Reference for the assignment, (ii) the selection process for the contract, or (iii) the supervision of the contract, may not be awarded a contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the procuring entity throughout the selection process and the execution of the contract.

(ii) Any other types of conflicting relationships **as specified in the Data Sheet**.

4. **Unfair Competitive Advantage**

4.1 Fairness and transparency in the selection process require that the Consultants/Firm or their affiliates competing for a specific assignment do not derive a competitive advantage. To that end, the procuring entity **as specified in the Data Sheet,** and make available all shortlisted Consultant/Firms, together with this RFP, all information.

5. Fraud, Corruption and Other Prohibited Practices

5.1 The Government of Jamaica requires that all parties involved in the procurement proceedings and execution of such contracts observe the highest standard of ethics.

5.2. For the purposes of this provision, offences of fraud and corruption are defined in Part VII of the Public Procurement Act, 2015 (Act) and any other Act relating to corrupt activities in Jamaica.

5.3 A person who commits an offence under the Act or any other Act relating to corrupt activities in Jamaica shall ---

(a) be liable for conviction under the provisions of the Act or any other Act relating to corrupt activities in Jamaica;

(b) have their bid rejected if it is determined that the bidder is not in compliance with the provisions of the Act, the regulations or any other Act relating to corrupt activities in Jamaica;

(c) risk other sanctions provided for in the Act or the regulations.

6 Eligibility

6.1 A Consultant/Firm may be a firm that is a private entity or the combination of such entities in the form of a joint venture (JV) under an existing agreement or with the intent to enter into such an agreement supported by a letter of intent. In the case of a JV, all members shall be jointly and severally liable for the execution of the entire Contract in accordance with the Contract terms. The JV shall nominate a Representative who shall have the authority to conduct all business for and on behalf of any and all the members of the JV during the bidding process and, in the event the JV is awarded the contract, during contract execution. Unless specified **in the Data Sheet,** there is no limit on the number of members in a JV.

6.2 A Consultant/Firm shall be deemed to have the nationality of a country if the Consultant/Firm is a citizen or is constituted, incorporated, or registered and operates in conformity with the provisions of the laws of that country. This criterion shall also apply to the determination of the nationality of proposed Sub-consultants or suppliers for any part of the Contract including related consulting services.

6.3 A Consultant/Firm shall not have a conflict of interest as specified at ITC/F Clause 3.

6.4 An eligible Consultant/Firm (regardless of its country of registration) shall not

a) have been convicted of an offence involving dishonesty, within five years immediately preceding the commencement of the procurement proceedings;

b) be an undischarged bankrupt;

c) be insolvent or is the subject of winding-up proceedings;

d) in the case of the supplier that is a body corporate, any of its directors, general managers, secretary or any other similar officer, has been convicted of an offence involving dishonesty, or have been the subject of legal or disciplinary proceedings for any breach of duty or professional misconduct, within five years immediately preceding the commencement of the procurement proceedings;

e) have a record of participation in public procurement or the supplier's business practices which gives the procuring entity reasonable cause to believe that the supplier carried out any act involving impropriety in the handling of moneys;

f) have its affairs being managed or administered by a court;

g) in the opinion of the procuring entity, be a person –

(i) who is not of sound probity; or

(ii) who is unable to exercise competence, diligence and sound judgment in fulfilling the supplier's responsibilities in relation to a public procurement.

6.5 A Consultant/Firm may not be a Government owned entity. However, as an exception when the consulting services of government-owned universities or research centers in Jamaica are of a unique and exceptional nature and their participation is critical to project implementation, the procuring entity may agree on the contracting of those institutions on a case-by-case basis. Any such agreement must be in writing and not breach ITC/F Clause 4. On the same basis, university professors or scientists from research institutes may be contracted individually.

6.6 The Consultant/Firm may not propose agency or current employees of the procuring entity. Recruiting former government employees of the procuring entity to work for their former ministries, departments

or agencies is acceptable provided no conflict of interest exists. When the Consultant/Firm nominates any government employee as Experts in their technical Proposal, such Experts must have written certification from the Government confirming that they are on leave without pay from their official position and allowed to work full-time outside of their previous official position. Such certification shall be provided to the procuring entity by the Consultant as part of their technical Proposal.

6.7 Consultants/Firms shall not submit more than one Proposal in this bidding process.

6.8 A Consultant/Firm that is ineligible in accordance with ITC/F Clause 5, at the date of contract award, shall be disqualified.

6.9 In accordance with the regulations, the Consultant/Firm and any named Subcontractors shall have to demonstrate that they have paid all taxes, duties, fees and other impositions as may be levied in Jamaica as part of their proposal. Proof of tax compliance is a copy of the Tax Compliance letter (TCL), if current/not expired.

6.10 Consultants/Firms must be registered with the Public Procurement Commission (Commission) (**http://www.ppc.gov.jm**) as an approved unregistered supplier.

6.11 This invitation is only open to Consultants/Firms who have been shortlisted by the procuring entity.

6.12 An eligible Consultant/Firm has the right to a reconsideration or review of an action or decision of the procuring entity in accordance with the reconsideration and review procedures described in the Public Procurement Manual.

B. Preparation of Proposals

7 General Considerations

7.1 The Consultant/Firm is expected to examine all instructions, forms, terms, and specifications in the solicitation documents. Failure to furnish all mandatory information or documentation required by the solicitation documents shall result in the rejection of the Proposal.

8 Cost of Preparation of Proposal

8.1 The Consultant/Firm shall bear all costs associated with the preparation and submission of its Proposal, and the procuring entity shall not be responsible or liable for those costs.

8.2 The procuring entity shall incur no liability by virtue of it exercising its power to cancel a procurement in accordance with Sections 41 and 44 of the Act.

8.3 Notwithstanding ITC/F Sub-Clauses 8.1 and 8.2, should the Procurement Review Board, following an application for reconsideration decide that the actions of the procuring entity were not in compliance with the provisions of the Act or the regulations, the Procurement Review Board may require the payment of compensation for any reasonable costs incurred by the Consultant/Firm. Any payment shall be limited to the costs of the preparation of the Proposal or the costs relating to the application, or both.

9 Language

9.1 The Proposal, as well as all correspondences and documents relating to the Proposal exchanged by the Consultant/Firm and the procuring entity, shall be written in the English language. Supporting documents and printed literature that are part of the Proposal may be in another language provided they are accompanied by an accurate translation of the relevant passages into the English language, in which case, for purposes of interpretation of the Proposal, such translation shall govern.

10 Documents Comprising the Proposal

10.1 The Proposal shall comprise the documents and forms listed as **specified in the Data Sheet.**

10.2 In addition to the requirements under ITC/F 10.1, Proposals submitted by a JV shall include a copy of the JV Agreement entered into by all partners. Alternatively, a Letter of Intent to execute a JV Agreement in the event of a successful Proposal shall be signed by all partners and submitted with the Proposal, together with a copy of the proposed agreement.

11 Only one Proposal

11.1 The Consultant/Firm (including the individual members of any JV) shall submit only one Proposal, either in its own name or as part of a JV in another Proposal. If a Consultant/Firm, including any JV member, submits or participates in more than one Proposal, all such Proposals shall be disqualified and rejected.

11.2 This does not, however, preclude a Sub-consultant, or the Consultant/Firm's staff from participating as Key Experts and Non-Key Experts in more than one Proposal when circumstances justify and if stated in the **Data Sheet.**

12 Proposal Validity

12.1 Proposals shall remain valid for the period **specified in the Data Sheet** after the Proposal submission deadline date prescribed by the procuring entity. A Proposal valid for a shorter period shall be rejected by the procuring entity as non-responsive. During this period, the Consultant/Firm, shall maintain its original Proposal without any change, including the availability of the Key Experts, the proposed rates and the total price.

12.2 If it is established that any Key Expert nominated in the Consultant/Firm's Proposal was not available at the time of Proposal submission or was included in the Proposal without his/her confirmation, such Proposal shall be disqualified and rejected for further evaluation, and may be subject to sanctions in accordance with Clause 5 of this ITC/F.

a. Extension of Validity Period

12.3 The procuring entity will make its best effort to complete the negotiations within the Proposal's validity period. However, should the need arise, the procuring entity may request, in writing, all Consultant/Firms who submitted Proposals prior to the submission deadline to extend the Proposals' validity.

12.4 If the Consultant/Firm agrees to extend the validity of its Proposal, it shall be done without any change in the original Proposal and with the confirmation of the availability of the Key Experts.

12.5 The Consultant/Firm has the right to refuse to extend the validity of its Proposal in which case such Proposal will not be further evaluated.

b. Substitution of Key Experts

12.6 If any of the Key Experts become unavailable for the extended validity period, the Consultant/Firm shall provide a written adequate justification and evidence satisfactory to the procuring entity together with the substitution request. In such case, a replacement Key Expert shall have equal or better qualifications and experience than those of the originally proposed Key Expert. The technical evaluation score, however, will remain to be based on the evaluation of the CV of the original Key Expert.

12.7 If the Consultant/Firm fails to provide a replacement Key Expert with equal or better qualifications, or if the provided reasons for the replacement or justification are unacceptable to the procuring entity, such Proposal will be rejected.

c. Sub-Contracting

12.8 The Consultant/Firm shall not subcontract the whole of the consulting services.

13 Clarification and Amendment of RFP

13.1 A prospective Consultant/Firm requiring any clarification of the solicitation documents shall contact the procuring entity in writing at the procuring entity's address **specified in the Data Sheet.** The procuring entity will respond in writing to any request for clarification, provided that such request is received prior to the period stated in the **Data Sheet**. In the case of electronic bidding clarifications should be submitted through the GOJEP System. The procuring entity shall forward copies of its response to all those who have acquired the solicitation documents directly from it, including a description of the inquiry but without identifying its source.

13.2 Should the procuring entity deem it necessary to amend the solicitation documents as a result of a clarification or the pre-Proposal meeting, it shall do so following the procedure under ITC/F Sub-Clauses 13.3 to 13.5.

13.3 At any time prior to the deadline for submission of consulting services, the procuring entity may, for any reason, whether at its own initiative or in response to a clarification requested by a prospective Consultant/Firm, amend the solicitation documents. Later amendments on the same subject modify or replace earlier ones.

13.4 Amendments will be provided in the form of Addenda to the solicitation documents, which will be sent in writing to all prospective Consultants/Firm that received the solicitation documents from the procuring entity. Addenda will be binding on Consultant/Firms. Consultants/Firms are required to immediately acknowledge receipt of any such Addenda. It will be assumed that the amendments contained in such Addenda will have been taken into account by the Consultant/Firm in its Proposal. In the case of electronic bidding any amendments to the solicitation documents will be issued through the GOJEP System.

13.5 In order to afford prospective Consultants/Firms reasonable time in which to take the amendment into account in preparing their consulting services, the procuring entity may, at its discretion, extend the deadline for the submission of consulting services, in which case, the procuring entity will notify all Consultants/Firms in writing of the extended deadline for the submission of consulting services, pursuant to ITC/F Clause 17.

13.6 If the clarification results in the RFP being materially inaccurate the procuring entity shall withdraw and reissue the RFP. Consultants/Firms who obtained these original documents will be permitted to participate without penalty.

14 Preparation of Proposals – Specific Considerations

While preparing the Proposal, the Consultant/Firm must give particular attention to the following:

14.1 If a shortlisted Consultant/Firm considers that it may enhance its expertise for the assignment by associating with other Consultant/Firms in the form of a JV or as Sub-consultants, it may do so with either (a) non-shortlisted Consultant/Firm(s), or (b) shortlisted Consultants/Firm if permitted in the **Data Sheet**. In all such cases a shortlisted Consultant/Firm must obtain the written approval of the procuring entity prior to the submission of the Proposal. When associating with non-shortlisted firms in the form of a joint venture or a sub-consultancy, the shortlisted Consultant/Firm shall be a lead member. If shortlisted Consultant/Firms associate with each other, any of them can be a lead member

14.2 The procuring entity may indicate in the **Data Sheet** the estimated Key Experts' time input (expressed in person-month) or the procuring entity's estimated total cost of the assignment, but not both. This estimate is indicative and the Proposal shall be based on the Consultant/Firm's own estimates for the same.

14.3 If stated in the **Data Sheet**, the Consultant/Firm shall include in its Proposal at least the same time input (in the same unit as indicated in the **Data Sheet**) of Key Experts, failing which the Financial

Proposal will be adjusted for the purpose of comparison of Proposals and decision for award in accordance with the procedure in the **Data Sheet**.

14.4 For assignments with a fixed budget, the estimated Key Experts' time input is not disclosed. Total available budget, exclusive of taxes, is given in the **Data Sheet**, and the Financial Proposal shall not exceed this budget.

15 Technical Proposal Format and Content

15.1 The Technical Proposal shall not include any financial information. A Technical Proposal containing material financial information shall be declared non-responsive.

15.2 Depending on the nature of the assignment, the Consultant/Firm is required to submit a Full Technical Proposal (FTP) or a Simplified Technical Proposal (STP) as indicated in the **Data Sheet** and using the Standard Forms provided in Section 3 of the RFP.

16 Financial Proposal

16.1 The Financial Proposal shall be prepared using the Standard Forms provided in Section 4 of the RFP. It shall list all costs associated with the assignment, including (a) remuneration for Key Experts and Non-Key Experts, (b) reimbursable expenses indicated in the **Data Sheet**.

a. Price Adjustment

16.2 For assignments with a duration exceeding 18 months, a price adjustment provision for foreign and/or local inflation for remuneration rates applies if so, **stated in the Data Sheet.**

b. Taxes

16.3 The Consultant/Firm and its Sub-consultants and Experts are responsible for meeting all tax liabilities arising out of the contract unless stated otherwise in the **Data Sheet**.

c. Currency of Proposal and Payment

16.4 The currency(ies) of the Proposal and the currency(ies) of payments shall be the same. The Consultant/Firm shall quote in Jamaican Dollars the portion of the Proposal price that corresponds to expenditures incurred in Jamaica, unless otherwise specified in the Data Sheet.

16.5 The Consultant/Firm may express the Proposal price for expenditure outside of Jamaica in any currency. If the Consultant/Firm wishes to be paid in a combination of amounts in different currencies, it may quote its price accordingly but shall use no more than three freely convertible international currencies in addition to Jamaican Dollars.

C. Submission, Opening and Evaluation

17 Submission, Sealing, and Marking of Proposals

17.1 The Consultant/Firm shall prepare one original of the documents comprising the Proposal as described in ITC/F Clause 10 and clearly mark it "ORIGINAL". In the case of electronic bidding the Proposal uploaded on the GOJEP system shall be the "ORIGINAL". For hard copy Proposals, the Consultant shall submit copies of the Proposal, in the number **specified in the Data Sheet** and clearly mark them "COPY." In the event of any discrepancy between the original and the copies, the original shall prevail.

17.2 The original and all copies of the Proposal shall be typed, digitally entered or written in permanent ink and shall be signed and stamped by a person duly authorized to sign on behalf of the Consultant/Firm. All pages must also be initialed by the authorized person. This authorization shall consist of a power of attorney and shall be attached to the Proposal.

17.3 A Proposal submitted by a JV shall be signed by all members so as to be legally binding on all members, or by an authorized representative who has a written power of attorney signed by each member's authorized representative.

17.4 Any interlineations, erasures, or overwriting shall be valid only if they are signed or initialed by the person signing the Proposal.

17.5 Proposals shall be submitted by hand in hard copy or electronically as **specified in the Data Sheet.**

(a) Consultants/Firms submitting consulting services by mail or by hand shall enclose the original and each copy of the Proposal, including alternative consulting services, if permitted, in accordance with ITC Clause 14, in separate sealed envelopes, duly marking the envelopes as **"ORIGINAL"** and **"COPY."** These envelopes containing the original and the copies shall then be enclosed in one single envelope. The rest of the procedure shall be in accordance with ITC Sub-Clauses 17.6 to 17.9.

(b) Consultants/Firms submitting consulting services electronically shall follow the e-GP procedures as described in the GOJEP Quick Guide for Suppliers.

17.6 For hard copy consulting services, the original and all the copies of the Technical Proposal shall be placed inside of a sealed envelope clearly marked "Technical Proposal", "[Name of the Assignment]", reference number, name and address of the Consultant, and with a warning "Do Not Open until [insert the date and the time of the Technical Proposal submission deadline]."

17.7 Similarly, the original Financial Proposal shall be placed inside of a sealed envelope clearly marked "Financial Proposal" followed by the name of the assignment, reference number, name and address of the Consultant/Firm, and with a warning "Do Not Open with The Technical Proposal."

17.8 The sealed envelopes containing the Technical and Financial Proposals shall be placed into one outer envelope and sealed. This outer envelope shall bear the submission address, reference number, the name of the assignment, Consultant's name and the address, and shall be clearly marked "Do Not Open Before **[insert the time and date of the submission deadline indicated in the Data Sheet]".**

17.9 If all envelopes are not sealed and marked as required, the procuring entity will assume no responsibility for the misplacement or premature opening of the Proposal.

18 Confidentiality

18.1 Information relating to the examination, evaluation, comparison, and post-qualification of Proposals, and recommendation of contract award, shall not be disclosed to Consultants/Firms or any other persons not officially concerned with such process until publication of the Contract Award.

18.2 Any effort by a Consultant/Firm or any person to influence the procuring entity in the examination, evaluation, comparison, and post-qualification of the consulting services or contract award decisions, pursuant to Section 56 of the Act, shall result in the rejection of its Proposal.

18.3 Notwithstanding ITC Sub-Clause 18.2, from the time of Proposal opening to the time of Contract Award, if any Consultant/Firm wishes to contact the procuring entity on any matter related to the bidding process, it should do so in writing.

19 Opening of Technical Proposals

19.1 For hard copy consulting services, the procuring entity shall conduct the Proposal opening in public at the address, date and time **specified in the Data Sheet** and in accordance with ITC Sub-Clauses 19.2 to 19.6. The envelopes with the Financial Proposal shall remain sealed and shall be securely stored with a reputable public auditor or independent authority until they are opened in accordance with Clause 23 of the ITC.

19.2 For electronic bidding the GOJEP System shall prepare a Proposal opening report that shall include, as a minimum: (i) the name and the country of the Consultant/Firm or, in case of a JV, the name of the JV, the name of the lead member and the names and the countries of all members; (ii) the presence

or absence of a duly sealed envelope with the Financial Proposal; (iii) any modifications to the Proposal submitted prior to Proposal submission deadline; and (iv) any other information deemed appropriate or as **indicated in the Data Sheet**. A copy of the report will be distributed to all Consultants/Firms who submitted a Proposal.

19.3 Envelopes marked "WITHDRAWAL" shall be opened and read out and the envelope with the corresponding Proposal shall not be opened, but returned to the Consultant/Firm. If the withdrawal envelope does not contain a copy of the "power of attorney" confirming the signature as a person duly authorized to sign on behalf of the Consultant/Firm, the corresponding Proposal will be opened. No Proposal withdrawal shall be permitted unless the corresponding withdrawal notice contains a valid authorization to request the withdrawal and is read out at Proposal opening.

19.4 Envelopes marked "MODIFICATION" shall be opened and read out with the corresponding Proposal. No Proposal modification shall be permitted unless the corresponding modification notice contains a valid authorization to request the modification and is read out at Proposal opening. Only envelopes that are opened and read out at Proposal opening shall be considered further.

19.5 All other envelopes shall be opened one at a time, reading out: (i) the name and the country of the Consultant/Firm or, in case of a JV, the name of the JV, the name of the lead member and the names and the countries of all members; (ii) the presence or absence of a duly sealed envelope with the Financial Proposal; (iii) any modifications to the Proposal submitted prior to Proposal submission deadline; and (iv) any other information deemed appropriate or as indicated in the Data Sheet.

19.6 The procuring entity shall prepare a record of the Proposal opening.

19.7 The Consultant/Firms' representatives who are present shall be requested to sign the attendance sheet.

19.8 A copy of the record shall be distributed to all Consultants/Firms who submitted consulting services in time and posted online when electronic bidding is permitted.

20 Late bids

20.1 The procuring entity shall not consider any Proposal that arrives after the deadline for submission of Proposals, in accordance with ITC/F Clause 19. All late Proposals shall be declared late and rejected. The Consultants/Firm will be notified and must collect their Proposal within 30 days. It the Proposal is not collected within this period it shall be destroyed.

20.2 In the case of electronic bidding, consultants/firm's quotation will be automatically rejected by the GOJEP system.

Bidders are therefore urged to commence bid upload at least two (2) hours prior to the submission time. The Procuring Entity will not be held liable for bids not submitted on time due to late commencement of bid upload. At the FIRST SIGN of any technical difficulties, bidders must make contact with the Office Of Public Procurement Policy:(876) 932-5220,932-5253,932-5246/5251.

21 Proposals Evaluation

21.1 Subject to provision of Clause 15.1 of the ITC/F, the evaluators of the Technical Proposals shall have no access to the Financial Proposals until the technical evaluation is concluded.

21.2 The Consultant/Firm is not permitted to alter or modify its Proposal in any way after the Proposal submission deadline except as permitted under Clause 12.6 of this ITC/F. While evaluating the Proposals, the procuring entity will conduct the evaluation solely on the basis of the submitted Technical and Financial Proposals.

22 Evaluation of Technical Proposals

22.1 The procuring entity shall evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and the RFP, applying the evaluation criteria, sub-criteria, and point system

as **specified in the Data Sheet**. Each responsive Proposal will be given a technical score. A Proposal shall be rejected at this stage if it does not respond to important aspects of the RFP or if it fails to achieve the minimum technical score indicated in the **Data Sheet.**

23 Public Opening of Financial Proposals

23.1 After the technical evaluation is completed, the procuring entity shall notify those Consultants/Firms whose Proposals were considered non-responsive to the RFP and TOR or did not meet the minimum qualifying technical score (and shall provide information relating to the Consultant/Firm's overall technical score, as well as scores obtained for each criterion and sub-criterion) that their Financial Proposals will be returned unopened after completing the selection process and contract signing. The procuring entity shall simultaneously notify in writing those Consultants/Firm that have achieved the minimum overall technical score and inform them of the date, time and location for the opening of the Financial Proposals. The opening date should allow the Consultants/Firm sufficient time to make arrangements for attending the opening. The Consultant/Firm's attendance at the opening of the Financial Proposals is optional and is at the Consultant/Firm's choice.

23.2 The Financial Proposals shall be opened by the procuring entity in the presence of the representatives of those Consultant/Firms whose Proposals have passed the minimum technical score. At the opening, the names of the Consultant/Firms, and the overall technical scores, including the break-down by criterion, shall be read aloud. The Financial Proposals will then be inspected to confirm that they have remained sealed and unopened. These Financial Proposals shall be then opened, and the total prices read aloud and recorded. Copies of the record shall be sent to all Consultant/Firms who submitted Proposals.

24 Correction of Errors

24.1 Activities and items described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, and no corrections are made to the Financial Proposal.

a. Time-Based Contracts

24.1 If a Time-Based contract form is included in the RFP, the procuring entity will (a) correct any computational or arithmetical errors, and (b) adjust the prices if they fail to reflect all inputs included for the respective activities or items in the Technical Proposal. In case of discrepancy between (i) a partial amount (sub-total) and the total amount, or (ii) between the amount derived by multiplication of unit price with quantity and the total price, or (iii) between words and figures, the former will prevail. In case of discrepancy between the Technical and Financial Proposals in indicating quantities of input, the Technical Proposal prevails and the procuring entity shall correct the quantification indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity, and correct the total Proposal cost.

b. Lump Sum Contracts

24.2 If a Lump-Sum contract form is included in the RFP, the Consultant/Firm is deemed to have included all prices in the Financial Proposal, so neither arithmetical corrections nor price adjustments shall be made. The total price, net of taxes understood as per Clause ITC/F 25 below, specified in the Financial Proposal (Form FIN-1) shall be considered as the offered price.

25 Taxes

25.1 The procuring entity's evaluation of the Consultant/Firm's Financial Proposal shall exclude taxes and duties in Jamaica in accordance with the instructions in the **Data Sheet**.

26 Conversion to a Single Currency

26.1 For evaluation and comparison purposes, the procuring entity shall convert all Proposal prices expressed in amounts in various currencies into an amount in a single freely convertible currency **specified in the Data Sheet,** using the selling exchange rates established by the source and on the date **specified in the Data Sheet.**

27 **Combined Quality and cost Evaluation**

27.1 The total score is calculated by weighting the technical and financial scores and adding them as per the formula and instructions in the **Data Sheet**. The Consultant/Firm achieving the highest combined technical and financial score will be invited for negotiations.

D. Negotiations and Award

28 Negotiations

28.1 The negotiations will be held at the date and address indicated in the **Data Sheet** with the Consultant/Firm's representative(s) who must have written power of attorney to negotiate and sign a contract on behalf of the Consultant/Firm.

28.2 The procuring entity shall prepare minutes of negotiations that are signed by the procuring entity and the Consultant/Firm's authorized representative.

a. Availability of Key Experts

28.3 The invited Consultant/Firm shall confirm the availability of all Key Experts included in the Proposal as a pre-requisite to the negotiations, or, if applicable, a replacement in accordance with Clause 12b of the ITC/F. Failure to confirm the Key Experts' availability may result in the rejection of the Consultant/Firm's Proposal and the procuring entity proceeding to negotiate the contract with the next-ranked Consultant/Firm.

28.4 Notwithstanding the above, the substitution of Key Experts at the negotiations may be considered if due solely to circumstances outside the reasonable control of and not foreseeable by the Consultant/Firm, including but not limited to death or medical incapacity. In such case, the Consultant/Firm shall offer a substitute Key Expert within the period of time specified in the letter of invitation to negotiate the contract, who shall have equivalent or better qualifications and experience than the original candidate.

b. Technical negotiations

28.5 The negotiations include discussions of the Terms of Reference (TORs), the proposed methodology, the procuring entity's inputs, the special conditions of the contract, and finalizing the "Description of Consulting Services" part of the contract. These discussions shall not substantially alter the original scope of consulting services under the TOR or the terms of the contract, lest the quality of the final product, its price, or the relevance of the initial evaluation be affected.

c. Financial negotiations

28.6 The negotiations include the clarification of the Consultant/Firm's tax liability in Jamaica and how it should be reflected in the contract.

28.7 If the technique included cost as a factor in the evaluation, the total price stated in the Financial Proposal for a Lump-Sum contract shall not be negotiated.

28.8 In the case of a Time-Based contract, unit rates negotiations shall not take place, except when the offered Key Experts and Non-Key Experts' remuneration rates are much higher than the typically charged rates by Consultants in similar contracts. In such case, the procuring entity may ask for clarifications and, if the fees are very high, ask to change the rates after consultation with the procuring entity

29 Conclusion of Negotiations

29.1 The negotiations are concluded with a review of the finalized draft contract, which then shall be initialed by the procuring entity and the Consultant/Firm's authorized representative.

29.2 If the negotiations fail, the procuring entity shall inform the Consultant/Firm in writing of all pending issues and disagreements and provide a final opportunity to the Consultant/Firm to respond. If disagreement persists, the procuring entity shall terminate the negotiations, informing the Consultant/Firm of the reasons for doing so. The procuring entity will invite the next-ranked Consultant/Firm to negotiate a contract. Once the procuring entity commences negotiations with the next-ranked Consultant, earlier negotiations cannot be reopened.

30 Award of Contract

30.1 On conclusion of the negotiations and prior to the expiration of the period of Proposal validity, the procuring entity shall notify all Consultants/Firms, in writing, of the determination of the successful Proposal including all the information required by Section 44(2) of the Public Procurement Act.

30.2 The date of the notification under ITC/F Sub-Clause 30.1 establishes the commencement of the standstill period specified in the Data Sheet. During this time Consultant/Firms may query, apply for reconsideration or otherwise challenge the decision of the procuring entity. This may include a request for debriefing seeking explanations for the grounds on which their consulting services were not selected.

30.3 On the expiry of the standstill period the procuring entity shall send the successful Consultant/Firm the initialed draft contract.

30.4 The successful Consultant/Firm shall return the signed contract within 28 days from the date of the Letter of Acceptance and shall sign, date, and return to the procuring entity the signed Contract Agreement.

30.5 On receipt of the signed Contract Agreement the procuring entity will immediately notify in writing all unsuccessful Consultant/Firms, of the final results of the bidding process.

30.6 Following signature of the Contract Agreement, the procuring entity shall publish, in the manner prescribed by the Office, the results, identifying the name of the Consultant/Firm, the contract price and the contract number.

30.7 The Consultant/Firm is expected to commence the assignment on the date and at the location **as specified in the Data Sheet**.

Section 2. Data Sheet

A. General Provisions	
ITC 2.1	The procuring entity is: **National Works Agency** The name and identification number of the RFP are: **Procurement of Consulting Services to Redevelop the National Works Agency's Corporate Website** **Ref No 410.01.2:19NWA251** The number, identification and names of the lots comprising this RFP are: *N/A* Method of selection: **Quality and Cost Based Selection**

The system will forward the tender opening report to all bidders who submitted bid proposal. **The Bid Opening Report can be downloaded under the Information tab 'Opened Bid Details' using the GOJEP platform at www.gojep.gov.jm**
ITC 19.3	In addition, the following information will be read aloud at the opening of the Technical Proposals: *N/A*
ITC 22.1 *[for FTP]*	Criteria, sub-criteria, and point system for the evaluation of the Full Technical Proposals are: **POINTS** **i. Specific experience of the Consultant/Firms:** *The Firm must submit the relevant form to support the criteria, inclusive of a list of contracts undertaken in the last 8 years.* ***[15 points]***

▪ At least (6) years' consulting experience in executing contracts of similar nature within the last 8 years.	15 points	
▪ Between three (3) and five (5) years' consulting experience in executing contracts of similar nature within the last 8 years	10 points	
▪ Less than three (3) years' consulting experience in executing contracts of similar nature within the last 8 years.	0 points	

ii. Adequacy and quality of the proposed methodology, and workplan in responding to the Terms of Reference (TORs): ***[40 points]***

The number of points to be assigned to the above criterion shall be determined considering the following three sub-criteria and relevant percentage weights:

a) *Technical Approach and Methodology is clear and responds to the TOR:* ***20 points***
b) *Work Plan is realistic and implementable:* ***20 points***

iii. Pre-proposal Website Mock-up Presentation: (10 points)

A twenty (20) minute mock-up presentation of the proposed website which clearly demonstrates the requirements of the TOR with the use of methodologies which are innovative and in keeping with modern approaches utilized throughout social media.

(1).	Very Good	20 points
(2).	Good	15 points
(3).	Satisfactory	10 points
(4).	Poor	5 points

iv. Key Experts' qualifications and competence for the Assignment:

{*Notes to Consultant: each position number corresponds to the same for theKey Experts in Form TECH-6 to be prepared by the Consultant*}

The number of points to be assigned to each of the positions shall be determined considering the sub-criteria and relevant percentage weights:

a) Position K-1: Project Manager [15 points]

1) General qualifications: [4.5 points]

Evidence of bachelor's degree in project management, Information Systems, Business or equivalent industry training, experience, and certifications	4.5 points
No evidence of bachelor's degree in project Management, Information Systems, Business or equivalent industry training, experience, and certifications	0 point

2) Adequacy for the assignment [10.5 points]

8 years and above of Experience in experience managing complex digital projects.	10.5 points
5 to 7 years of Experience in experience managing complex digital projects.	6.5 point
3 to 4 years of Experience in experience managing complex digital projects.	4.5 points
Less than 3 years of Experience in experience managing complex digital projects.	0

b) Position K-2 Senior Developer [10 points]

1) General qualifications: [3 points]

Evidence of bachelor's degree in computer science, Web Development or a related discipline.	3 points
No evidence of evidence of bachelor's degree in computer science, Web Development or a related discipline.	0 point

2) Adequacy for the Assignment: [7 points]

• At least 8 years' hands -on experience in an Information Technology environment. **AND** • Experience in full-stack architecture and cloud infrastructure (AWS/Azure certification preferred).	7 points
• Less than 8 years' hands-on experience in an Information Technology environment. **AND** • No experience in full-stack architecture and cloud infrastructure (AWS/Azure certification preferred).	0 point

c) Position K-3 User Interface Developer [10 points]

3) General qualifications: [3 points]

Evidence of bachelor's degree in computer science, Web Development or a related discipline.	3 points
No evidence of evidence of bachelor's degree in computer science, Web Development or a related discipline.	0 point

4) Adequacy for the Assignment: [7 points]

• At least 5 years of professional experience. **AND** • Demonstrated mastery experience of HTML, CSS, JavaScript, and modern frontend frameworks.	7 points
• No evidence of at least 5 years of professional experience. **AND**	0 point

	• No evidence of demonstrated mastery experience of HTML, CSS, JavaScript, and modern frontend frameworks.
	Total points for criterion (iii): [70 Points] **Total Points for the four criteria: 100** **The minimum technical score (St) required to pass is: 70 points**
ITC 25.1	*N/A*
ITC 26.1	**N/A, as the Bid amount and the payment are to be in Jamaican Dollars only.**
ITC 27.1	**The lowest evaluated Financial Proposal (Fm) is given the maximumfinancial score (Sf) of 100.** **The formula for determining the financial scores (Sf) of all otherProposals is calculated as following:** **Proposals are ranked according to their combined technical (St) and financial (Sf) scores using the weights using the formula which is: ((Score Technical / Best Technical Score) * Weight Technical) + ((Best Financial Offer / Current Financial Offer) * Weight Financial).** **Weighted Technical Score = 70%** **Weighted Financial Score = 30%**
D. Submission, Opening and Evaluation	
ITC 28.1	Expected date and address for contract negotiations: Will be notified to the qualified bidder.
ITC 30.1	The "standstill" period shall be for **two (2)** days.
ITC 30.7	Expected date for the commencement of the consulting services: Will be notified to the successful bidder.

Section 3. Technical Proposal – Standard Forms

[Notes to Consultant shown in brackets [ ] throughout Section 3 provide guidance to the Consultant to prepare the Technical Proposal; they should not appear on the Proposals to be submitted.]

Checklist of Required Forms

Required for FTP or STP [*], (√)		FORM	DESCRIPTION	Page Limit

All pages of the original Technical and Financial Proposal shall be initialed by the same authorized representative of the Consultant who signs the Proposal.

Form TECH-1: Technical Proposal Submission Form

[Location, Date]

To: ***[Name and address of procuring entity]***

Dear Sirs:

We, the undersigned, offer to provide the consulting services for ***[Insert title of assignment]*** in accordance with your Request for Proposals dated ***[Insert Date]*** and our Proposal. *[Select appropriate wording stated in the RFP:* "We are hereby submitting our Proposal, which includes this Technical Proposal and a Financial Proposal sealed in a separate envelope" or, if only a Technical Proposal is invited "We hereby are submitting our Proposal, which includes this Technical Proposal only in a sealed envelope.*"].*

We hereby declare that:

(a) All the information and statements made in this Proposal are true and we accept that any misinterpretation or misrepresentation contained in this Proposal may lead to our disqualification by the procuring entity.

(b) Our Proposal shall be valid and remain binding upon us for the period of time specified in the Data Sheet, Clause 12.1.

(c) We have no conflict of interest in accordance with ITC/F 3.

(d) We meet the eligibility requirements as stated in ITC/F 6, and we confirm our understanding of our obligation to abide by the Government's policy in regard to prohibited practices as per ITC/F 5.

(e) We have paid all taxes, duties, fees and other impositions as may be levied in Jamaica and attach a copy of out TCL to this Form.

(f) We are registered with the Commission and attach a copy of our Certificate of Registration to this Form.

(g) Except as stated in the Data Sheet, Clause 12.1, we undertake to negotiate a contract on the basis of the proposed Key Experts. We accept that the substitution of Key Experts for reasons other than those stated in ITC/F Clause 12 and ITC/F Clause 28.4 may lead to the termination of contract negotiations.

(h) Our Proposal is binding upon us and subject to any modifications resulting from the contract negotiations.

(i) We hereby agree that in competing for (and, if the award is made to us, in executing) the contract, we undertake to observe the laws against fraud and corruption, including bribery, in force in Jamaica.

We undertake, if our Proposal is accepted and the contract is signed, to initiate the consulting services related to the assignment no later than the date indicated in Clause 30.7 of the Data Sheet.

We understand that the procuring entity is not bound to accept any Proposal that the procuring entity receives. We understand that the procuring entity may cancel a procurement at any time prior to the acceptance of the successful Proposal or after the successful Proposal is accepted if

(i) the Consultant/Firm presenting the Proposal is disqualified under the Act or the regulations of the Public Procurement Act, 2015;

(ii) the procurement is cancelled;

(iii) the Consultant/Firm presenting the successful Proposal is excluded on the grounds of corruption, unfair competition and a conflict of interest; or

(iv) the procurement, the Proposal or the Consultant/Firm contravenes or is otherwise not compliant with the provisions of the Public Procurement Act, 2015.

Name and Title of Signatory: _____

Name of Consultant/Firm (company's name or JV's name):

In the capacity of: _____

Address: _____

Contact information (phone and e-mail): _____

[For a joint venture, either all members shall sign or only the lead member, in which case the power of attorney to sign on behalf of all members shall be attached]

Form TECH-2: Consultant/Firm's organization and experience

[For Full Technical Proposal Only]

Form TECH-2: a brief description of the Consultant/Firm's organization and an outline of the recent experience of the Consultant/Firm that is most relevant to the assignment. In the case of a joint venture, information on similar assignments shall be provided for each partner. For each assignment, the outline should indicate the names of the Consultant/Firm's Key Experts and Sub-consultants who participated, the duration of the assignment, the contract amount (total and, if it was done in a form of a joint venture or a sub-consultancy, the amount paid to the Consultant/Firm), and the Consultant/Firm's role/involvement.

A – Consultant/Firm's Organization

[1. Provide here a brief description of the background and organization of your company, and – in case of a joint venture – of each member for this assignment.]

B – Consultant/Firm's Experience

1. List only previous similar assignments successfully completed in the last *10* years.

2. List only those assignments for which the Consultant/Firm was legally contracted as a company or was one of the joint venture partners. Assignments completed by the Consultant/Firm's individual experts working privately or through other consulting firms cannot be claimed as the relevant experience of the Consultant/Firm, or that of the Consultant/Firm's partners or sub-consultants, but can be claimed by the Experts themselves in their CVs. The Consultant/Firm should be prepared to substantiate the claimed experience by presenting copies of relevant documents and references if so, requested by the procuring entity.

Duration	Assignment name/& brief description of main deliverables/outputs	Name of Client & Country of Assignment	Approx. Contract value (in J$)/ Amount paid to your firm	Role on the Assignment
[e.g., Jan.2016–Apr.2017]	*[e.g., "Improvement quality of....."": designed master plan for rationalization of .....;]*	*[e.g., Ministry of ....., country]*	*[e.g., J$1 mill/J$0.5 mill]*	*[e.g., Lead partner in a JV A&B&C]*
[e.g., Jan-May 2017]	*[e.g., "Support to sub-national government....." : drafted secondary level regulations on.....]*	*[e.g., municipality of....., country]*	*[e.g., J$0.2 mil/J$$0.2 mil]*	*[e.g., sole Consultant]*

Form TECH-3: Comments and suggestions on the Terms of Reference, counterpart staff, and facilities to be provided by the Procuring entity

[For Full Technical Proposal Only]

Form TECH-3: comments and suggestions on the Terms of Reference that could improve the quality/effectiveness of the assignment; and on requirements for counterpart staff and facilities, which are provided by the procuring entity, including: administrative support, office space, local transportation, equipment, data, etc.

A - On the Terms of Reference

[Improvements to the Terms of Reference, if any]

Form TECH-4: Description of approach, methodology, and work plan in responding to the Terms of Reference

[For Full Technical Proposal Only]

Form TECH-4: a description of the approach, methodology and work plan for performing the assignment, including a detailed description of the proposed methodology and staffing for training, if the Terms of Reference specify training as a specific component of the assignment.

[Suggested structure of your Technical Proposal (in FTP format):

a) Technical Approach and Methodology

b) Work Plan

c) Organization and Staffing]

a) ***Technical Approach and Methodology.*** *[Please explain your understanding of the objectives of the assignment as outlined in the Terms of Reference (TORs), the technical approach, and the methodology you would adopt for implementing the tasks to deliver the expected output(s), and the degree of detail of such output. Please do not repeat/copy the TORs in here.]*

b) ***Work Plan.*** *[Please outline the plan for the implementation of the main activities/tasks of the assignment, their content and duration, phasing and interrelations, milestones (including interim approvals by the procuring entity), and tentative delivery dates of the reports. The proposed work plan should be consistent with the technical approach and methodology, showing your understanding of the TOR and ability to translate them into a feasible working plan. A list of the final documents (including reports) to be delivered as final output(s) should be included here. The work plan should be consistent with the Work Schedule Form.]*

c) ***Organization and Staffing.*** *[Please describe the structure and composition of your team, including the list of the Key Experts, Non-Key Experts and relevant technical and administrative support staff.]*

Form TECH-5: Work schedule and planning for deliverables

[For Full Technical Proposal and Simplified Technical Proposal]

N°	Deliverables [1] (D-..)	Months											
		1	2	3	4	5	6	7	8	9	.....	n	TOTAL
D-1	*Work Plan*												
	a)												
D-2	*Draft (Interim) Report*												
D-3	*Final (Close-Out) Report and Presentation*												
n													

1 List the deliverables with the breakdown for activities required to produce them and other benchmarks such as the procuring entity's approvals. For phased assignments, indicate the activities, delivery of reports, and benchmarks separately for each phase.
2 Duration of activities shall be indicated in a form of a bar chart.
3. Include a legend, if necessary, to help read the chart.

Form TECH-6: Team composition, assignment, and key experts' inputs

[For Full Technical Proposal and Simplified Technical Proposal]

N°	Name	Expert's input (in person/weeks) per each Deliverable (listed in TECH-5)												Total time-input (in Months)		
		Position		D-1		D-2		D-3	.....		D-...			Home	Field	Total
KEY EXPERTS																
K-1	*{e.g., Mr. Abbbb}*	*[Team Leader]*	*[Home]*	*[2 month]*		*[1.0]*		*[1.0]*								
			[Field]	*[0.5 m]*		*[2.5]*		*[0]*								
K-2																
K-3																
K-4																
K-5																
											Subtotal					
											Total					

1 For Key Experts, the input should be indicated individually for the same positions as required under the Data Sheet ITC21.1.

2 Months are counted from the start of the assignment/mobilization. One (1) month equals twenty-two (22) working (billable) days. One working (billable) day shall be not less than eight (8) working (billable) hours.

3 "Home" means work in the office in the expert's country of residence. "Field" work means work carried out in the procuring entity's country or any other country outside the expert's country of residence.

Appendix A. Financial Negotiations - Breakdown of Remuneration Rates

1. **Review of Remuneration Rates**

1.1. The remuneration rates are made up of salary or a base fee, social costs, overheads, profit, and any premium or allowance that may be paid for assignments away from headquarters or a home office. An attached Sample Form can be used to provide a breakdown of rates.

1.2. If the RFP requests submission of a technical Proposal only, the Sample Form is used by the selected Consultant to prepare for the negotiations of the contract. If the RFP requests submission of the financial Proposal, the Sample Form shall be completed and attached to the Financial Form-3. Agreed (at the negotiations) breakdown sheets shall form part of the negotiated contract and included in its Appendix D or C.

1.3. At the negotiations the firm shall be prepared to disclose its audited financial statements for the last three years, to substantiate its rates, and accept that its proposed rates and other financial matters are subject to scrutiny. The procuring entity is charged with the custody of government funds and is expected to exercise prudence in the expenditure of these funds.

1.4. Rate details are discussed below:

(i) Salary is the gross regular cash salary or fee paid to the individual in the firm's home office. It shall not contain any premium for work away from headquarters or bonus (except where these are included by law or government regulations).

(ii) Bonuses are normally paid out of profits. To avoid double counting, any bonuses shall not normally be included in the "Salary" and should be shown separately. Where the Consultant's accounting system is such that the percentages of social costs and overheads are based on total revenue, including bonuses, those percentages shall be adjusted downward accordingly. Where national policy requires that 13 months' pay be given for 12 months' work, the profit element need not be adjusted downward. Any discussions on bonuses shall be supported by audited documentation, which shall be treated as confidential.

(iii) Social Charges are the costs of non-monetary benefits and may include, inter alia, social security (including pension, medical, and life insurance costs) and the cost of a paid sick and/or annual leave. In this regard, a paid leave during public holidays or an annual leave taken during an assignment if no Expert's replacement has been provided is not considered social charges.

(iv) Cost of Leave. The principles of calculating the cost of total days leave per annum as a percentage of basic salary is normally calculated as follows:

$$\text{Leave cost as percentage of salary} = \frac{\text{total days leave x 100}}{[365 - w - ph - v - s]}$$

Where w = weekends, ph = public holidays, v = vacation, and s = sick leave.

Please note that leave can be considered as a social cost only if the procuring entity is not charged for the leave taken.

(v) Overheads are the Consultant's business costs that are not directly related to the execution of the assignment and shall not be reimbursed as separate items under the contract. Typical items are home office costs (non-billable time, time of senior Consultant's staff monitoring the project, rent of headquarters' office, support staff, research, staff training, marketing, etc.), the cost of Consultant's personnel not currently employed on revenue-earning projects, taxes on business activities, and business promotion costs. During negotiations, audited financial statements, certified as correct by an independent auditor and supporting the last three years' overheads, shall be available for discussion, together with detailed lists of items making up the overheads and the percentage by which each relates to basic salary. The procuring entity does

not accept an add-on margin for social charges, overhead expenses, etc. for Experts who are not permanent employees of the Consultant. In such case, the Consultant shall be entitled only to administrative costs and a fee on the monthly payments charged for sub-contracted Experts.

(vi) Profit is normally based on the sum of the Salary, Social costs, and Overheads. If any bonuses paid on a regular basis are listed, a corresponding reduction shall be made in the profit amount. Profit shall not be allowed on travel or any other reimbursable expenses.

(vii) Away from Home Office Allowance or Premium or Subsistence Allowances. Some Consultants pay allowances to Experts working away from headquarters or outside of the home office. Such allowances are calculated as a percentage of salary (or a fee) and shall not draw overheads or profit. Sometimes, by law, such allowances may draw social costs. In this case, the amount of this social cost shall still be shown under social costs, with the net allowance shown separately. UNDP standard rates for the particular country may be used as reference to determine subsistence allowances.

Assignment: Date:

Consultant/Firm's Representations Regarding Costs and Charges

We hereby confirm that:

(a) the basic fees indicated in the attached table are taken from the firm's payroll records and reflect the current rates of the Experts listed which have not been raised other than within the normal annual pay increase policy as applied to all the Consultant/Firm's Experts;

(b) attached are true copies of the latest pay slips of the Experts listed;

(c) the away- from- home office allowances indicated below are those that the Consultant/Firm has agreed to pay for this assignment to the Experts listed;

(d) the factors listed in the attached table for social charges and overhead are based on the firm's average cost experiences for the latest three years as represented by the firm's financial statements; and

(e) said factors for overhead and social charges do not include any bonuses or other means of profit-sharing.

Evaluation and Qualification Criteria

In order for proposals to be evaluated, Consultants/Firms must satisfy the following Qualification Criteria.

Criteria.

This will involve the assessment of the following factors:

1.	Experience	15 points
2.	Quality of Work plan	40 points
3.	Presentation	10 points
4.	Staff Qualification	35 points
		100 points

The Bidder must provide adequate details on their technical approach, work plan, organization and staff plan, and the timeframe for completing deliverables.

Item	Evaluation	Maximum Points	Min Points for Pass
1. **Firms Experience relevant to the Assignment**	The Firm must submit the relevant form to support the criteria, inclusive of a list of contracts undertaken in the last 8 years. The Firm must have conducted at least six (6) years consulting experience in working with an institution of similar size to NWA or experience working with government or enterprise-scale websites. ***The firm must submit three (3) client references.***	**15**	15 points
	▪ At least (6) years' consulting experience in executing contracts of similar nature within the last 8 years.	15 points	
	▪ Less than (6) years' consulting experience in executing contracts of similar nature within the last 8 years.	0 points	
2. **Technical Response and Methodology in responding to the Terms of Reference.** *(Measures how the methodology proposed compares against NWA's needs; the quality of the methodology proposed to ensure that the selected Bidder knows the scope of the services required).*	**Based on response in Table 2** Explanation of how the Consultant/Firm will satisfy the objectives and requirements of this project with details of industry standards for website design and development and methodology to be used. *(Consultant/Firm is asked to explain their understanding of the assignment and how they will go about conducting the tasks)*	**40**	30 points
	▪ The proposed methodology is clear and responds to the TOR. a) Very Good – 20 points b) Good – 15 points c) Satisfactory – 10 points d) Poor - 5 points	20 points	

Item	Evaluation	Maximum Points	Min Points for Pass
	▪ Work plan is realistic and implementable. *Consultant/Firm will propose the main activities of their assignment, content and duration, phasing and interrelations, milestones (including interim approvals by NWA), and delivery dates of the most important reports.*	20 points	
	a) Very Good – 20 points b) Good – 15 points c) Satisfactory – 10 points d) Poor - 5 points		
2. Pre-proposal Website Mock-up Presentation	A twenty (20) minute mock-up presentation of the proposed website which clearly demonstrates the requirements of the TOR with the use of methodologies which are innovative and in keeping with modern approaches utilized in website design and development. The respective consultants may include as part of their presentation live links from previous websites.	**10**	8 points
	a) Very Good – 10 points b) Good – 8 points c) Satisfactory – 5 points d) Poor - 0 points		
3. Team Composition, Qualification, Key Experts' qualifications and competence for the assignment	The Firm must submit signed and certified curriculum vitae (CV) for each member of the proposed team. The scores will be assigned as follows:	**35**	25 points
	Project Manager – General Qualification	**15**	
	▪ Evidence of Bachelor's Degree in Project Management, Information Systems, Business or equivalent industry training, experience, and certifications.	4.5 points	
	▪ No evidence of Bachelor's Degree in Project Management, Information Systems, Business or equivalent industry training, experience, and certifications.	0 points	

Item	Evaluation	Maximum Points	Min Points for Pass
	Project Manager – Adequacy for the assignment:Industry Experience		
	Minimum 8 years of Experience in experience managing complex digital projects .	10.5 points	
	Less than 8 years of Experience managing complex digital projects .	0 point	
	Senior Developer – General Qualifications	**10**	
	▪ Evidence of Bachelor's degree in Computer Science, Web Development or a related discipline.	3 points	
	▪ No evidence Bachelor's degree in Computer Science, Web Development or a related discipline.	0 points	
	Senior Developer - Adequacy for the assignment: Industry Experience		
	• At least 8 years' hands -on experience in an Information Technology environment. **AND** • Experience in full-stack architecture and cloud infrastructure (AWS/Azure certification preferred).	7 points	
	• Less than 8 years' hands-on experience in an Information Technology environment . **OR** • No experience in full-stack architecture and cloud infrastructure (AWS/Azure certification preferred). •	0 points	

Item	Evaluation	Maximum Points	Min Points for Pass
	User Interface (UI) Developer – General Qualifications	**10**	
	• Evidence of Bachelor's degree in Computer Science, Web Development or a related discipline.	3 points	
	• No evidence of Bachelor's degree in Computer Science, Web Development or a related discipline.	0 points	
	User Interface (UI) Developer – Adequacy for the assignment: Industry Experience		
	• At least 6 years of professional experience. **AND** • Demonstrated mastery experience in HTML, CSS, JavaScript, and modern frontend frameworks.	7 points	
	• No evidence of at least 6 years of professional experience. **OR** • No evidence of demonstrated mastery experience in HTML, CSS, JavaScript, and modern frontend frameworks.	0 points	
		100	**70**

AWARD CRITERIA:

A minimum of 70 points is needed in the Qualification Phase for proposals to be evaluated. Bids that do not achieve the minimum <u>70 points</u> will be rejected.

Proposals are ranked according to their combined technical (St) and financial (Sf) scores using the weights using the formula which is: ((Score Technical / Best Technical Score) * Weight Technical) + ((Best Financial Offer / Current Financial Offer) * Weight Financial).

Having satisfied the above criteria, the NWA will evaluate the bids based on Cost and the contract will be awarded based on the combined technical and financial scores.

Weighted Technical Score = 70%

Weighted Financial Score = 30%

TERMS OF REFERENCE (TOR)

Procurement of Consulting Services to Redevelop the National Works Agency's Corporate Website

1. Background & Organizational Objectives

The National Works Agency (NWA) (herein after referred as "NWA" or "Agency") intends to utilize this Request for Proposal seeks to engage eligible and qualified bidders for Consulting Services for the redevelopment of its Corporate website.

- The National Works Agency (NWA) is an executive agency of the Government of Jamaica under the Ministry of Economic Growth and Infrastructure Development (MEGID), responsible for the administration of the national main road network of approximately 5,000 km. In support of its modernization agenda, digital transformation, and mandate to improve transparency, accessibility, and public engagement, the NWA is undertaking a comprehensive redevelopment of its corporate website to ensure alignment with the Information and Communication Technology (ICT) Authority theme and with broader digital strategy of the Government of Jamaica (GoJ).

The redeveloped platform will modernize the Agency's digital presence, expand online service offerings, and improve operational efficiency, while strengthening public trust through clearer, more timely, and more transparent communication on:

- the condition and management of Jamaica's road network;
- major infrastructure projects and programmes;
- disaster preparedness, response, and recovery activities;
- core departmental services and online transactions; and
- public information, notices, publications, and stakeholder updates.

2. Key Objectives & Website Goals

The integrated objectives from both documents are to:

- Enhance public engagement through intuitive navigation, interactive content, and timely updates.
- Improve transparency and accountability by publishing accurate, accessible, and searchable information on projects, programmes and policies.
- Improve service delivery by enabling online forms, payments (for future Development), status tracking, and self-service tools for citizens, contractors, and partners.
- Streamline internal workflows via role-based access, integrated applications, dashboards, and automated processes.
- Strengthen NWA's branding and digital presence with a modern, visually appealing, and mobile-first interface.

- Ensure accessibility and compliance with Government of Jamaica web standards and WCAG 2.1 AA guidelines.
- Improve communication before, during, and after disaster events through real-time alerts, dashboards, and status pages.
- Provide a secure, scalable platform that supports future enhancements, integrations, and new digital services.
- Ensure ease of modification and maintenance.

3. Project Scope

The scope of work includes the requirements of the Technical Specifications, and includes *inter alia:*

- Full UX/UI redesign and development of the NWA corporate website, including a mobile-responsive interface and updated information architecture as per detailed specifications.
- Initial user and audience analysis to understand key user groups, their needs, expectations, and priority user journeys.
- Content audit and migration from the existing website, including documents, images, publications, and structured data.
- Design and implementation of a modern Content Management System (CMS) with modular content types, templates, workflows, and role-based access.
- Development of core corporate pages (About Us, Mission/Vision/Values, Management Team, Offices, History, FAQs, Careers, Contact Us).
- Development of rich department/functional pages (e.g., Traffic Management, Policy and Planning, Major Projects, Maintenance, Parish Operations, Bridge and Drainage, Environmental and Social Management).
- Development of dynamic project and programme pages, including parish-level views, timelines, dashboards, and GIS maps.
- Development of notices, alerts, and information sections (newsroom, road closures, tenders, special reports, EIAs, publications, gazetted markings, library, glossary, etc.).
- Implementation of online services (e.g., complaints, general road repair reports, development control/subdivision services, soil test requests, payments, vacancies and job applications, information access requests).
- Integration with internal applications and modules as outlined in the App Integration & Modules table (Feedback Application (Complaint Tracker), HRMIS, Development Control status, traffic cameras, Waze, GIS dashboards, etc.).
- Implementation of analytics and reporting, including dashboards and user insights.
- Implementation of security, privacy, backup, disaster recovery, and business continuity measures.
- Testing, quality assurance, deployment to the NWA hosting environment, training, documentation. Test plan will be created by vendor and will be approved upon agreement of purchaser.
- Post-launch support for at least thirty (30) days.

4. Governance, Roles & Responsibilities

The project will be governed jointly by NWA and the selected Vendor, with clearly defined responsibilities:

1. **NWA's Responsibilities**

- Assign an Authorized Project Manager with adequate decision-making authority and responsibility for coordination with the Vendor.
- Provide access to relevant systems, infrastructure, documentation, and subject matter experts.
- Provide branding assets, content, policies, and requirements for inclusion on the website.
- Review and approve key deliverables including requirements, wireframes, mockups, prototypes, test plans, and final outputs.
- Assign staff for training and ongoing content management and participate actively in change control and acceptance testing.

2. **Vendor / Service Provider's Responsibilities**

- **Project Management (PM):** Provide a qualified **Project Manager** with a bachelor's degree in Project Management, Information Systems, Business, or a related field, and 8–10 years of experience managing complex digital projects. The PM shall lead delivery, manage resource allocation, and serve as the primary point of contact. Guide website design team to ensure alignment with the ICT Authority theme and with broader digital strategy of the GoJ;

  - **Senior Developer:** Provide a **Senior Developer** with a bachelor's degree in Computer Science, Web Development, or a related field, and 8–10 years of hands-on experience. This individual must possess deep technical expertise in full-stack architecture and cloud infrastructure (AWS/3 certification preferred) to ensure secure and scalable system integration.
  - **User Interface (UI) Development:** Provide a **UI Developer** with a bachelor's degree in Computer Science, Web Development, or a related field, and 5–8 years of professional experience. The candidate must demonstrate mastery of HTML, CSS, JavaScript, and modern frontend frameworks. The Developer must certify that all interfaces comply with WCAG 2.1 Level AA accessibility standards.
  - **Compliance & Security:** Ensure the Vendor organization maintains industry-standard security controls and follows best practices to protect NWA data throughout the project lifecycle.
  - **Requirements Validation:** Perform comprehensive requirements validation, stakeholder interviews, and content analysis to define and finalize the technical and functional scope.
  - **Design & Implementation:** Design, develop, configure, and implement the website, CMS, third-party integrations, and supporting infrastructure in alignment with industry best practices and NWA security standards.
  - **Change Control:** Adhere to a formal Change Control Process for any variations in scope, schedule, or budget, ensuring all changes are documented and approved in writing.
  - **Testing & Quality Assurance:** Prepare and execute rigorous test plans (UAT, security, and performance); the vendor is responsible for remedying all defects identified during testing or within the agreed-upon post-launch support period.
  - **Documentation:** Deliver comprehensive technical documentation, including system architecture, configuration guides, and detailed user/administrator manuals.
  - **Training & Support:** Provide structured training sessions for NWA staff and deliver dedicated post-launch technical support for the duration of the agreed maintenance period.

5. Technical & Functional Requirements

5.1 Summary of Deliverables

The Vendor is required to provide the deliverables listed in the table below. These mandatory items serve as the project foundation and will be expanded in sections 5.2, 5.3 and 5.4.

Deliverable	Item No	Subcomponent	Description / Scope
1. Discovery & Design Foundation **Key outputs:** Approved requirements & scope Signed-off wireframes and UI designs Content structure agreed at a high level	1.0	Requirement & Scope Definition	**Final requirement capture:** kick-off meeting, stakeholder interviews, content audit, and approval of project scope.
	2.0	Design & UI/UX Assets	Wireframes, mockups, responsive design templates, graphics, icons, images, and component design.
2. Platform & Architecture Setup **Key outputs:** Live hosting environment Core site pages and templates WCAG 2.1 AA-compliant layouts **Performance benchmarks achieved**	3.0	Infrastructure Setup	Web server/cloud hosting configuration, CDN setup, TLS, security hardening, backups, and monitoring tools.
	4.0	CMS & Content Architecture	Modular content types, page templates, components/blocks, workflows, user roles & permissions.
3. Core Website Build **Key outputs:**	5.0	Core Pages & Templates	Home, landing pages, content templates, dynamic pages, internal pages, modular reusable components.
	6.0	Accessibility & Compliance	WCAG 2.1 AA compliance, responsive layouts, accessibility testing, inclusion of assistive technology support.

Deliverable	Item No	Subcomponent	Description / Scope
Feature-complete website Content fully populated Security controls in place Staff portals and role-based access configured	7.0	Performance Optimization	Fast page loads, caching, image optimization, lazy loading, low-bandwidth support, mobile-first optimization.
4. Advanced Features & Integrations **Key outputs:** Search, analytics, and dashboards Dynamic project, news, and media sections Public engagement tools operational	8.0	Special Features & Integrations	Capacity to accommodate future E-commerce integration, GIS/maps integration, live alerts, social media integration, dashboards, document repository, APIs, chatbots.
	9.0	Search Functionality	Advanced search with predictive suggestions, filters, analytics on queries, and indexing of all content.
	10.0	Analytics & Reporting	Integration with analytics tools, visitor tracking, behaviour heatmaps, custom dashboards, and reporting.
	11.0	Dynamic Project & Programme Pages	Interactive project listings, GIS-mapped timelines, completion status, dashboards, and parish-level breakdowns.
	12.0	News, Alerts & Publications	Newsroom, press releases, road closures, tender notices, publications, EIA reports, newsletters, search, and filtering.
	13.0	Media & Galleries	Photo galleries, video streaming, multimedia content, embeddable widgets (Google Maps, Esri), accessible media players.
	14.0	User Feedback & Engagement	Customer feedback forms, issue/complaint tracking, online reporting, social media engagement, and contact forms.
5.Security, Content & Launch Readiness **Key outputs:** Full QA passed Content populated and validated	15.0	Security & Privacy	Authentication & authorization, encryption protocols, session management, secure data storage, logging & audit trails.
	16.0	Testing & Quality Assurance	Functional, cross-browser, performance, security, and accessibility testing; QA sign-offs.
	17.0	Content Migration & Population	Transfer of existing content, images, documents, and data; CMS population for live launch.
	18.0	Staff Access & Management	Role-based access, staff portals (HRMIS, , complaint tracker, internal tools), training modules.

Deliverable	Item No	Subcomponent	Description / Scope
Security controls verified Staff access configured			
6. Launch, Training & Continuity **Key outputs:** Trained staff Documentation delivered Support and DR plans active	19.0	Training & Documentation	Staff training for CMS, technical documentation, user manuals, and content guides.
	20.0	Post-Launch Support	Bug fixes, security updates, CMS support, change control, monitoring, and performance tuning.
	21.0	Disaster Recovery & Continuity	Backup restoration, failover systems, redundancy, and operational continuity planning.

5.2 General Specifications

The general specifications for product life, support, and turn-key delivery are as follows:

Item No.	Characteristic	Standards / Requirements
1.0	**Product Life**	**1.** Technologies used must be the latest version in product line **2.** No refurbished systems **3.** Not at End of Life
2.0	**Support**	**1.** Vendors must undertake to provide support either directly or indirectly through supply channels
3.0	**Turn-Key Solution**	**1.** The information systems must have all the essential subsystems that will make it ready for immediate use. The Purchaser will **not** be required to purchase any additional hardware, software, peripherals, and materials to make the system operational.

5.3 Detailed Functional Specification

The following table defines the detailed functional requirements for the website, including target pages, components, and technical standards.

Item #	Name of Sub Component or Features	Technical Specifications and Standards
1.	Resolution	Website design must be flexible and responsive, adapting seamlessly to various screen sizes and devices, with a primary focus on optimizing the user experience for mobile users
2.	Browsers	All Browsers
3.	Platforms	Website must support all major operating systems, including Windows, macOS, iOS, and Android
4.	Connection Speed	Website must be optimized for efficient performance across all network conditions, including low-bandwidth and mobile connections.
5.	Content Management	End users must be able to manage content via a modern CMS. Must support role-based access, version control, workflows, and audit logging
6.	Scripts\CSS	Selection of scripting tool based on vendors choice
7.	Media (Video/Audio)	The website should be able to present and stream videos in modern formats with responsive players
8.	Dynamic	The website must support real-time updates for alerts, notices, and news, easily managed via CMS and integrated with dashboards or APIs.
9.	Search	The website must offer advanced, fast search functionality, including predictive search, filtering options, and analytics on user queries
10.	Internal Links	The website must allow secure access to internal applications (e.g., Traffic Management Centre) as required
11.	External Links	The website must support seamless integration with partner sites and social media platforms (X, Facebook, Instagram, YouTube, TikTok), including real-time feeds, sharing capabilities, and engagement analytics.
12.	Analytics and User Insights	The website must support full integration with advanced analytics tools, including visitor tracking and custom dashboards.
13.	Web Services	The website must be able to use web services to securely integrate with internal applications that need to be exposed to the web (for growth)
14.	Widgets	The website must support modern embeddable widgets and interactive content (e.g., Google Maps, Esri, dashboards), ensuring full responsiveness and accessibility
15.	APIs	1. The website must allow the use of APIs to represent Agency projects spatially, with interactive GIS maps and dashboards.

Item #	Name of Sub Component or Features	Technical Specifications and Standards
		2. API provision to connect to internal applications to interface with internal sql queries
16.	Webpage (Emergency Operations)	The website must provide real-time Emergency Operation Centre information, alerts, and status updates.
17.	Homepage	The website must feature modular homepage components, including Top Stories, Newsfeed, Search, Social Media handles/links, Live Chat, Chat Bot, FAQs, and dynamic internal links, and must be fully responsive and customizable via the CMS
18.	Information Resource Management Page (Services)	The website must be able to process access to information requests
19.	General Road Repairs Page (Projects/Programmes)	The website must provide an interactive listing of general road repairs and projects, displaying completion percentages, timelines, and geospatial mapping, and must be fully dynamic and CMS-driven
20.	Major Projects Page (Projects/Programmes)	The website must display a list of projects with their scheduled completion dates and current status.
21.	Individual Major Project Page (Projects/Programmes)	Project Overview, Project Timeline and Project Report
22.	Programme Page (Projects/Programmes)	Programme Overview, Technical Specifications
23.	Project Listing by Parish Page (Projects/Programmes)	The website must display a list of projects by parish, including scheduled completion dates and status
24.	Individual Project Detail Page (Projects/Programmes)	Project Overview and Status
25.	Bids/Tenders Page (Notices/News and Information)	The website must provide a list of current and archived tender notices, easily searchable and filterable by users
26.	Road Closures/Incidents Page (Notices/News and Information)	The website must provide a list of road closure notices organized by parish, with real-time updates where applicable
27.	Newsroom Page (Notices/News and Information)	List of News: The website must provide a list of news posts organized by date published (MM/YYYY). Search Functionality: The website must include a search bar to allow users to find specific news posts. Reset Functionality: The website must include a reset button to clear search filters and return to the full list of results/default view.
28.	Publications Page (Notices/News and Information)	The website must provide a centralized, searchable repository for all Agency publications, filterable by category (e.g., Reports, Magazines, Brochures) and

Item #	Name of Sub Component or Features	Technical Specifications and Standards
		date, with support for PDF indexing and direct downloads.
29.	Roadster (Publications)	List of Roadster magazines by date published
30.	Annual Reports (Publications)	List of Reports: The website must provide a list of reports organized by date published. Search Functionality: The website must include a search bar to allow users to find specific reports. Reset Functionality: The website must include a reset button to clear search filters and return to the full report list
31.	Photo Gallery (Publications)	The website must provide a photo gallery with images organized by parish and category, accessible and searchable by users
32.	Other Publications (Publications)	The website must provide a list of other publications, organized and accessible for users.
33.	Special Reports (Notices/News and Information)	
34.	Reports (Special Reports)	The website must provide a list of reports including Complete Environmental Impact Assessment (EIA) Reports, and other reports
35.	Library (Notices/News and Information)	The website must provide an overview of the Library (Document Centre)
36.	Public Procurement (Notices/News and Information)	The website must provide a list of notices, news and information and other documents related to Public Procurement.
37.	Documents/ Forms and Manual (Notices/News and Information)	The website must provide a structured repository of documents, forms, and manuals, including a Legal Corner, organized by department for easy access.
38.	Gazettes (Notices/News and Information)	The website must provide an up-to-date listing of gazetted road markings and others.
39.	Glossary of Terms (Notices/News and Information)	The website must provide a glossary of terms, accessible and searchable for users
40.	HRMIS (Staff Access)	The website must provide a secure, authenticated link or portal redirect to the existing internal HRMIS application, ensuring that access is restricted to authorized personnel
41.	Feedback Application and Complaint Management (Complaint Tracker) (Staff Access)	The website must provide a comprehensive system to: • Record issues and complaints: Provide a mobile-responsive interface for the public to submit reports including category, description, photo/video uploads, and location-pinning via an integrated map. The system must automatically

Item #	Name of Sub Component or Features	Technical Specifications and Standards
		generate a unique Tracking ID for every submission. • Update the status of issues or complaints: Enable authorized NWA personnel to move a record through defined stages (e.g., Pending Approval, Pending Funding, Sent for Review, Resolved). Each status change must be timestamped and linked to the specific staff member's profile for audit purposes. • View detailed information on issues or complaints: Provide a secure internal dashboard where staff can review the "Full Case File," including all high-resolution attachments, exact GPS coordinates, and a chronological history of all internal actions taken. • Track the progress and resolution of issues or complaints: – For the Public: Offer a "Track My Request" tool where citizens can enter their unique ID to see the real-time status of their report. – For Management: Provide real-time visibility into the volume and age of active tickets to ensure departmental accountability and timely resolution. • Assign complaint: Feature an administrative interface that allows NWA managers to formally assign a submitted record to a specific department, regional office, or individual officer for action, triggering an automated email notification to the assignee. • Escalation mechanism: Provide an automated escalation workflow that allows specified individuals to escalate an issue when certain conditions are met (e.g., time-based delays or priority thresholds). • 2-person closeout mechanism: Require a dual-authorization process for the final resolution of a case; a "Resolved" status must be verified and formally closed out by a second authorized supervisor.

Item #	Name of Sub Component or Features	Technical Specifications and Standards
		• 2-person delete mechanism: Prohibit the unilateral deletion of any record. The system must require a deletion request to be initiated by one authorized user and formally approved by a second high-level administrator before the record is removed or archived. • Management Dashboard: Provide a real-time, interactive visual dashboard for NWA executives to monitor key performance indicators (KPIs), including total submissions, open vs. closed cases, geographic hotspots by Parish, and departmental response times.
42.	Vacancies (Staff Access)	Recruitment Policy: The website must display the agency's recruitment policy. Internal Vacancies: The website must provide a list of internal vacancies, including position, closing date, description, and associated documents. Application Forms: The website must provide links to the relevant application forms for each vacancy
43.	Careers (About Us)	Form to allow members of the public to apply for internally advertised jobs
44.	Bridges & Roads (Other)	List of all NWA bridges and roads along with their descriptions
45.	Parish Road Maps (Other)	Maps of Individual Parishes
46.	Department Overview	The website must provide a list of departments and their roles and functions to include services provided.
47.	Mission, Vision, Values (About Us)	Overview of the Agency's Mission, Vision and Values
48.	Management Team (About Us)	List of Senior Managers and their photos
49.	FAQs (About Us)	List of Frequently Asked Questions
50.	Office Locations (About Us)	List of the agency's office locations and contact information
51.	Contact Us (About Us)	- Corporate office contact information - Google image of Pinned (Map) Corporate Office location - Contact form
52.	History (About Us)	Overview/ History of NWA
53.	Web Forms	Customer Feedback, Endorsement Forms which captures persistent data
54.	Webpage	The website must include links to the Agency Relevant Partners, Applications, and Twitter Page owned by the Agency.

Item #	Name of Sub Component or Features	Technical Specifications and Standards
55.	Layout	The website must have a fluid and responsive layout that adapts seamlessly to all screen sizes and devices.
56.	Social Media Widgets	The website must feature embedded social media feeds (X) etc
57.	Accessibility	Persons with special needs must be able to use site (Site must provide good user experience)
58.	Design Architecture	The website must have a modular, component-based architecture to facilitate future enhancements, scalability, and maintainability.
59.	Browser Compatibility	The website must be compatible with all browsers and platforms.
60.	Plug-ins	The website must not require plug-ins as a default.
61.	Optimization	The website must be optimized for mobile devices.
62.	Standards	The website must comply with the Government of Jamaica website development standards and be built in accordance with Web Content Accessibility Guidelines (WCAG) 2.1 AA as provided by W3C, ensuring accessibility for all users, including mobile users, screen reader users, and those with disabilities
63.	Transport Layer Security TLS	The website must use a secure Content Management System and enforce HTTPS using TLS 1.2 or higher.
64.	Optimization	The website must be optimized for fast loading, ensuring a balance of text and graphics so that each page loads in 10 seconds or less on an average connection
65.	Supervision	Website development must be performed with the guidance of the Agency Staff.

5.4 App Integration & Modules

In addition to the above, the redeveloped website must support the following integrations and modules.

Module / Area	Description	Lead Department / Owner
Feedback Application (Complaint Tracker)	Incident reporting and tracking (web and potentially mobile channels).	CCS / IT
Planning & Research – Development Control	Status tracker for development control applications.	Planning & Research
Road Closure Notices	Publishing and managing road closure notices with links to maps and alternate routes.	Planning & Research
Waze Integration	Integration with Waze for real-time route and incident information.	IT / GIS
Esri ArcGIS Dashboards	Interactive maps and dashboards for the National Main Road Project, projects, damages, and recovery status.	GIS
Geospatial Data Request Section	Provide Available datasets, Metadata summaries, File formats, Pricing (including student/teacher exemptions, where applicable), Expected turnaround time, Request form	GIS
Live Feeds	Traffic camera feeds, press briefings, and social media live streams (X, Facebook, Instagram, YouTube, TikTok).	CCS / IT / Traffic Management
HRMIS / Staff Access / Recruitment	Secure staff access to HRMIS and recruitment information/portals.	IT / HR
VMS Signs	Display and management of Variable Message Sign (VMS) content where applicable.	Traffic Management
Disaster Management / Reporting	Modules and dashboards for disaster event reporting, tracking, and recovery monitoring.	IT / GIS

6. Design, User Experience & Content Management

The website must present a modern, visually appealing, and professional interface with a consistent look and feel across all pages. It must support intuitive navigation, clear information architecture, and a mobile-first responsive design that adapts gracefully to smartphones, tablets, laptops, and desktops.

- Intuitive global and local navigation with clear labelling, breadcrumbs where appropriate, and prominent search.
- Consistent use of colours, typography, and imagery aligned with NWA's brand identity and Government of Jamaica guidelines.
- Component-based layout using reusable blocks (e.g., hero banners, cards, accordions, tabbed content, alerts, call-to-action panels).
- Accessibility by design, including proper heading structures, alt text for images, keyboard navigability, and ARIA support.
- Support for rich media (photos, video, audio, drone footage) with accessible players and captions/subtitles where required.

The CMS must allow authorized staff to create, edit, approve, and publish content without technical assistance, using:

- Structured content types and page templates for the main page categories (About, News, Tenders, Projects, Publications, etc.).
- Role-based access control with distinct roles for authors, editors, approvers, and administrators.
- Version history, audit trails, and workflow support for content review and approval.
- Taxonomies, tagging, and metadata to support advanced search and filtering.
- Support for multilingual content and localization (where required), or at minimum, readiness to support this in the future.

7. Infrastructure, Hosting, Security & Disaster Recovery

The website will be hosted on NWA's internal infrastructure, using either Windows Server (e.g., Windows Server 2022 or later) or an approved Linux/UNIX-based environment, subject to meeting all security, performance, and operational requirements. The Vendor is responsible for full setup, configuration, and validation of the web server environment, including SSL/TLS, backups, monitoring, and performance tuning.

- Use of modern, supported technologies that are not at or approaching end-of-life and are vendor-supported for the duration of the contract.
- Implementation of HTTPS across the site, using strong cipher suites (Go-Daddy/Wildcard) and valid certificates.
- Secure authentication and authorization mechanisms, including session management and logout.
- Input validation and protection against common web application vulnerabilities.
- Logging, monitoring, and alerting for security events and system health.
- Regular backups tested restoration procedures, and clear Recovery Time Objective (RTO) and Recovery Point Objective (RPO) targets.

- Redundancy and failover arrangements where required to support continuity of critical services (e.g., disaster dashboards, alerts).

8. Implementation, Testing & Quality Assurance

The Vendor must prepare a detailed implementation plan and test strategy. At minimum, testing must cover functional, usability, performance, security, cross-browser, and accessibility aspects, using a combination of automated and manual methods.

- At least three (3) tiers of testing (e.g., system, user acceptance, and pre-launch regression).
- Documented test cases and test results, with defects tracked to resolution.
- Performance testing to validate page load targets and responsiveness under expected load.
- Accessibility testing aligned with WCAG 2.1 AA, including testing with assistive technologies where practical.
- Security testing to verify that vulnerabilities are mitigated and that configuration is hardened.

The project schedule must define clear milestones for requirements, design, development, testing, content migration, training, and launch. Final acceptance will be granted upon successful completion of agreed test cycles and written approval by the NWA Project Manager.

9. Training, Documentation & Knowledge Transfer

The Vendor must provide comprehensive training and documentation to enable NWA to operate and maintain the website and CMS independently after the support period.

- Administrator training on configuration, user management, security, and maintenance.
- Editor/publisher training on content creation, publishing workflows, and media management.
- Technical documentation covering system architecture, integrations, configuration, and backup/restore procedures.
- User manuals or quick reference guides for day-to-day CMS usage.

10. Post-Launch Support

The Vendor must provide post-implementation support for at least two (2) months after go-live, including bug fixes, security updates, minor enhancements, and technical guidance. Service levels, response times, and escalation paths should be defined in a Support Agreement or Service Level Agreement (SLA).

Scope of Assessment Technical Specifications and Standards

Item No	Deliverable	Description / Scope	Vendor Response (Yes/No)	Vendor Comment
1.0	Requirement & Scope Definition	Final requirement capture: stakeholder interviews, content audit, and approval of project scope.		
2.0	Design & UI/UX Assets	Wireframes, mockups, responsive design templates, graphics, icons, images, and component design.		
3.0	Infrastructure Setup	Web server/cloud hosting configuration, CDN setup, TLS, security hardening, backups, and monitoring tools.		
4.0	CMS & Content Architecture	Modular content types, page templates, components/blocks, workflows, user roles & permissions.		
5.0	Core Pages & Templates	Home, landing pages, content templates, dynamic pages, internal pages, modular reusable components.		
6.0	Special Features & Integrations	Capacity to accommodate **future E-commerce integration,** GIS/maps integration, live alerts, social media integration, dashboards, document repository, APIs.		
7.0	Accessibility & Compliance	WCAG 2.1 AA compliance, responsive layouts, accessibility testing, inclusion of assistive technology support.		
8.0	Performance Optimization	Fast page loads, caching, image optimization, lazy loading, low-bandwidth support, mobile-first optimization.		
9.0	Security & Privacy	Authentication & authorization, encryption protocols, session management, secure data storage, logging & audit trails.		
10.0	Testing & Quality Assurance	Functional, cross-browser, performance, security, and accessibility testing; QA sign-offs.		
11.0	Content Migration & Population	Transfer of existing content, images, documents, and data; CMS population for live launch.		
12.0	Search Functionality	Advanced search with predictive suggestions, filters, analytics on queries, and indexing of all content.		
13.0	Analytics & Reporting	Integration with analytics tools, visitor tracking, behaviour heatmaps, custom dashboards, and reporting.		
14.0	Staff Access & Management	Role-based access, staff portals (HRMIS, feedback application		

Item No	Deliverable	Description / Scope	Vendor Response (Yes/No)	Vendor Comment
		(complaint tracker), internal tools), training modules.		
15.0	Dynamic Project & Programme Pages	Interactive project listings, GIS-mapped completion status, dashboards, and parish-level breakdowns.		
16.0	News, Alerts & Publications	Newsroom, press releases, road closures, tender notices, publications, EIA reports, newsletters, search, and filtering.		
17.0	Media & Galleries	Photo galleries, video streaming, multimedia content, embeddable widgets (Google Maps, Esri), accessible media players.		
18.0	User Feedback & Engagement	Customer feedback forms, issue/complaint tracking, online reporting, social media engagement, contact forms.		
19.0	Training & Documentation	Staff training for CMS, technical documentation, user manuals, content guides.		
20.0	Post-Launch Support	Bug fixes, security updates, CMS support, change control, monitoring, and performance tuning.		
21.0	Disaster Recovery & Continuity	Backup restoration, failover systems, redundancy, and operational continuity planning.		

11. Deliverables and Schedule

Phase / Item No	Deliverable	Recommended Timeline	Key Milestones / Notes
1.0	Requirement & Scope Definition	Weeks 1–2	Stakeholder interviews, content audit, MVP vs Phase 2 prioritization, scope approval
2.0	Infrastructure Setup	Weeks 1–2	Hosting, CDN, SSL, environments (dev/stage/prod) established early
3.0	CMS & Content Architecture	Weeks 2–4	Content types, taxonomies, workflows, roles locked
4.0	Design & UI/UX Assets	Weeks 2–4	Wireframes, design system, accessibility-first UI patterns
5.0	Core Pages & Templates	Weeks 5–8	Home, landing, internal templates, reusable components

6.0	Content Migration & Population	Weeks 5–8	Priority content migrated; editors populate CMS early
7.0	Security & Privacy	Weeks 5–8	Authentication, RBAC, audit logs, privacy compliance
8.0	Accessibility & Compliance	Weeks 5–12	WCAG 2.1 AA embedded in design, build, and testing
9.0	Special Features & Integrations	Weeks 9–12	GIS/maps, alerts, APIs, dashboards, social feeds
10.0	Search Functionality	Weeks 9–12	Predictive search, filters, indexing
11.0	Analytics & Reporting	Weeks 9–12	Analytics tools, dashboards, reporting setup
12.0	Performance Optimisation	Weeks 9–12	Caching, image optimisation, mobile & low-bandwidth tuning
13.0	Testing & Quality Assurance	Weeks 9–12	Functional, cross-browser, security, accessibility testing
14.0	Dynamic Project & Programme Pages	Weeks 13–14	Interactive listings, GIS timelines, dashboards
15.0	News, Alerts & Publications	Weeks 13–14	Newsroom, alerts, tenders, publications
16.0	Media & Galleries	Weeks 13–14	Photo galleries, video, multimedia widgets
17.0	User Feedback & Engagement	Weeks 13–14	Feedback forms, reporting tools, engagement features
18.0	Staff Access & Management	Weeks 13–15	Role-based access, staff portals, admin setup
19.0	Training & Documentation	Weeks 13–15	CMS training, technical docs, user manuals
20.0	Disaster Recovery & Continuity	Weeks 13–15	Backup testing, failover, continuity plans validated
21.0	Go-Live & Post-Launch Support	Week 16 + 30–60 days	Public launch, monitoring, bug fixes, performance tuning

12. Contract Duration:

(a) The maximum duration for this consultancy is **sixteen** (**16) weeks**, starting on the agreed-upon date and ending upon completion of all final deliverables accepted by the client.

(b) To ensure timely completion, the timeline must be strictly followed, and any delays or changes to the consultancy schedule must be promptly communicated. The consultancy duration covers all necessary tasks, including project planning, translation, editing, proofreading, and final quality assurance.

(c) If there is a need to extend the duration of the consultancy, the client must provide written consent, and both parties must agree to the corresponding additional fees and adjustments to the timeline.

13. Compensation

13.1 The Consulting Firm shall be compensated upon completion of the following milestones:

Milestones	Compensation %
Approval of Deliverable #1 - **Discovery & Design Foundation**	30%
Approval of Deliverable #2 - **Platform & Architecture Setup**	10%
Approval of Deliverable #3 - **Core Website Build**	10%
Approval of Deliverable #4 - **Advanced Features & Integrations**	10%
Approval of Deliverable #5 - **Security, Content & Launch Readiness**	10%
Approval of Deliverable #6 **- Launch, Training & Continuity**	30%

14 Implementation and Supervision of the Consultancy

14.01 During the consultancy period, the Consulting Firm shall perform their duties from their own premises, providing their own equipment, facilities, and working hours necessary to complete the assignment. The Consulting Firm is accountable for acquiring any computing and related equipment, software, and supplies required to execute the assignment, at their own expense. NWA will assist the Consulting Firm by providing administrative and logistical assistance, such as arranging meetings etc. However, the Consulting Firm will need to attend meetings, consultation sessions, or other designated locations when requested.

14.02 The Consulting Firm shall be required to attend a kick-off meeting to discuss project goals, establish communication protocols, define roles and responsibilities, establish expectations, and identify potential roadblocks or issues that may need to be addressed. Ideally, the meeting should be held prior to the Consulting Firm submitting its Work Plan.

Reporting Relationship

14.03 During the performance of the contract, the Consulting Firm shall report ultimately to the Chief Executive Officer (CEO), NWA, or designate, under the direction of the assigned Project Supervisor. The Consulting Firm shall submit all Reports, in the required format, directly to the Project Supervisor.

15 Intellectual Property

All work produced under the contract becomes the exclusive property of the NWA upon final payment. This includes but is not limited to:

- Website design files
- Source code
- Databases and configuration files
- Documentation
- Written content
- Artwork and creative assets developed for the project.

The contractor may not reuse, resell, or repurpose any part of the work without written permission from the NWA. All third-party software or assets used must be properly licensed, with proof of licensing provided upon request.

Portfolio Use The contractor may request permission to display the completed website in their professional portfolio once the site is live subject to the granting of permission by the NWA.

15 Non-Disclosure Agreement (NDA)

The Consultant or Company who is engaged to carry out this role of agrees to keep in confidence all information provided to you, whether written or oral, about the contract and/or about the confidential information and business processes generally which is not already in the public domain, to use it only for this bid and for no other reason and not to disclose any of the said information to any third party.

All bidders are required to sign a Non-Disclosure Agreement (NDA) prior to attending the proposed Pre-Bid meeting. The completed and signed Non-Disclosure Agreement (NDA) must be submitted via email to the Director, Public Procurement @ christopherbeccan@nwa.gov.jm
